Personal Profile

I am an ambitious student with a passion for Software Engineering. I have worked in both IT and retail and have completed shorter placements including at Thales Group. I learn new skills quickly and enjoy being challenged in my work. My goals are to improve my computer science and interpersonal skills. I am organised and manage my time effectively and I relish working as part of a team and love to input my own ideas. During my degree, I have developed an excellent eye for detail, due to the precise requirements of my assignments and projects.

Achievements

Software Engineering BSc | Bournemouth University | 2020 - Current

Notable Grades:

Data and Databases	98.50%	Principles of Programming	88.95%	Infrastructure Strategy	81.75%	**1st Year** 82.57%
Applications of Programming Principles	98.50%	Networks & Cyber Security	81.50%	Machine Learning	93%	**2nd Year** 76.04%

Final Year Units: Machine Intelligence, Advanced Development, Software Quality and an Individual Project.

Subject Achievement Scholarship: Computing and IT
Scholarship awarded due to demonstrating commitment to my area of study through additional work experience and voluntary or community work.

Computing and IT - Level 3 Extended BTEC Diploma | 2018-2020

GCSE | 2013-2018

Computer Science: 7, Mathematics: 7, Physics: 7, Biology: 6, Chemistry: 6, English Language: 5, French: 5, English Literature: 4, Product Design: C, ECDL Certificate: Distinction*

Skills

Languages & Technologies:

HTML   CSS   JS   Java   Python   SQL   Kotlin

Git   GitHub   AWS   Jira   VS Code

Experience

IT Technician - Huish Academy Trust - Summer 2021

I worked alongside the Network Manager at three primary schools to re-purpose computer equipment, manage network user profiles and provide support to members of staff. During my time at the Academy I worked alongside experienced members of staff, which developed my technical skills and professionalism.

Customer Advisor - Argos - Summer 2018

My role involved engaging with customers, providing customer service and completing orders. In my time in the role I delivered a high standard of customer service and effective time management whilst working as part of a team.

Freelance and Voluntary Work

I have worked with a large junior school to produce marketing material and other forms of documentation. This has involved communicating with members of staff and delivering upon their specific requirements.

Interests

In my spare time, I enjoy developing my own projects, including a portfolio and weather website that I created during my time between College and University.

At the weekend, I proudly support my local team, attending home and away games and have a passion for cooking and graphic design. As a former Scout, I enjoy volunteering in the community and exploring new places.
